

THE OUTDOOR COLLECTION

"THE HARMONY OF FUNCTION & AESTHETICS"

A close-up photograph of teak wood grain, showing the characteristic wavy, concentric patterns and a warm, golden-brown color. The wood grain is the primary visual element on the left side of the page.

OUR TEAK STORY

"WHY TEAK WOOD? "

As we all know, Teak is a very special hardwood which can be found in the tropical climate region.

With a beautiful golden brown color and unique grain, Teak offers an extraordinary fine texture as they grow older, suitable for making a quality piece of furniture.

Our teak was originally came from Jepara City, the heart of central Java Island, Indonesia.

Jepara is one of teak wood resource cities abundant with very sophisticated wood grains in orderly and gentle style.

ABOUT US

Krisna Jati has been established since 1991 in Jepera Central Java, Indonesia.

Jepera is recognized as one of the quality teak resource cities, a city that has plenty of experienced carpenters with their special ability for wood carving and furniture making.

In order to maintain Jepera's reputation of being the gem of furniture city, our company has been encouraging all local carpenters to develop themselves not only within our organization, but also the entire wood industry.

We have supplied a full range of machinery for the best manufacturing outcome to ensure that our customers are fully satisfied with the results and the products that we deliver.

OUR NEXT STEPS

With over 27 years of our experiences in wood manufacturing,
we are ready to move forward to next step.
Our visions are as follows;

- 1) Create high-quality products that are functional
with a total of aesthetic sense.
- 2) Provide design solutions that meet every need of people,
particularly at this era of modern lifestyle.

We aim to continuously create and develop
our furniture & outdoor accessories
in order to make the most unique and never the same product
for our valued customers.
